

Hello Parents,

My name is Heather White and I am the new Head Athletic Trainer for Red Lion Area School District. My assistant, Stephanie White, and I are excited to join this school district and work with your student-athletes.

In an effort to facilitate handing in paperwork in a safe and contactless manner, we are improving the way physicals are submitted for school sponsored sports. Instead of submitting physicals to coaches, the office, or the athletic department, physicals will be submitted online through a platform called SportsWare (please see information attached on how to do this).

If you have already handed paperwork in for the fall, **please do not worry** - we will process your child's physical from our end.

You will still need to create an account on SportsWare, but we are going to process the forms that have already been handed in.

Given that this process is new and there will be a learning curve on how to use SportsWare, we are extending the paperwork due date to August 7th. **If your child's information and paperwork is not submitted by August 7th, please be aware they may not be cleared by their August 17th start date (or August 10th for the football team).**

We understand this is a new process and will take some adjusting to at first, but this is the safest and most efficient method for submitting student-athlete information. Thank you in advance for your patience, and please feel free to reach out to us with any questions you may have.

We look forward to working with you this fall - **GO LIONS !!**

Best,
Heather White
